33 Civic Questions for Moorish Children and their friends by KahMara Gabri El, In Propria person, Sui Juris. Published 1997 A.D. Says the Fez Publication - Philadelphia

Knowledge is Power and North America is under European Colonization. That is the main motivation and reason why the Inquisitionist and their Colonist descendants continue to resist any sincere efforts made by anyone who would institute a system of proper and pristine education or for a balanced curriculum for the suppressed and "branded" Aboriginal, Indigenous Moors of North America. Moors themselves must enforce their rights to strengthen their distinct political, economical, social and cultural life of the State. The supreme, substantive rights are documented and supported by national and International Law. We Moors must enforce the Law in order to save the nation. – Taj Tarik Bey
